Bloomington Police Department

Narrative Supplemental Report

Offense Description: **1st Degree Murder**
Primary Person Involved:

Case Number: **98 4610**

On this date I did place into evidence Five (5) letters that were written by Bart McNeil. They were to Tita McNeil, three (3) letters. One letter to Me and a letter to These letters , excluding the one to me were brought to the station by and .

All the letters still try to point the finger at Misook Nowlin being responsible for the death of It appears to Me that Bart is "coaching" as to what He has told people about Misook and asking them to remember specific things about there relationship.

I also added to the case file the results from Terry McCann's polygraph examination of Misook Nowlin. McCann advised that He was unable to render an opinion but did agree with Det. Arnold and Myself that Nowlin had nothing to do with death and that She is being truthful. McCann believes that the problem is that Nowlin is of Asian descent and there is a communication barrier between the two of them.

Officer ID# / Name: **Det. L. Shepherd**
